## Education

### Computer Science (BSc)

University of Portsmouth

2024-2028

Predicted first-class  
honours

Covers data structures,  
usability engineering,  
database principles and  
programming.

### Digital Design, Production and Development

T-level at Strode College

Sep 2022- Jul 2024

## SUMMARY

Computer Science Student with practical programming experience in Python, SQL, and Dart. Actively seeking a placement. Proven leadership and communication skills gained from over a year in customer-facing roles and as the Welfare Officer for the IT Society.

## Skills

Programming Languages: Python, SQL, Dart

Web Dev with HTML CSS JS

## Professional Experience

### Counter Staff | Jul 2023 – Sep 2024

#### Castle Fryer, Fish and Chip

- Working as counter staff, and packing items, cleaning and restocking when needed.

### Library Assistant | Sep 2023 – May 2024

#### Somerton Community Library – Internship

- I was doing, and actively developing, a digital drop-in session for people who needed digital help.

## Organizations

### Welfare Officer | Aug 2025 - Present

#### IT Society

- Currently running welfare for the IT society, in addition to this, I help with running events, making posters and assets and member acquisition.
- We run a 10-week coding for none coder course, a basic game dev course, and help run multiple hackathons.
